

CS4500 Weekly Management Report

Team10

Team Let's Meet

September 9, 2022

Accomplishments

(Be specific – what was accomplished and who participated; bulletize response)

- CRUD operations/endpoints for database models
 - Ethan
- Fixed Mobile build and environment issues, implement Login screens for Mobile
 - Hope
- Worked on mocking the web frontend to be a bit more usable and displaying more mock data from the back to front(still in progress)
 - Lindsay
- Fixing build issues on mobile, android side
 - Lindsay
- Adding JWT authentication to sign in and verify users on the back end. This will allow us to sign in mobile users and verify them through Identity
 - Kolby

Goals & Priorities

(List short- and long-term goals in decreasing order of importance; state who is primary responsible and when due)

Short Term :

- Test the JWT with Postman or some other service.
 - Kolby 9/12/2022
- Connect Mobile to JWT
 - Hope & Kolby (Pair) 9/12/2022
- API endpoints for basic operations (friend requests, calendar operations, etc.)
 - Ethan 9/12/2022
- Get mobile simplified
 - Hope 9/12/2022

- Get more functionality on the website frontend. Sending dummy data from backend to the frontend and sending from frontend to backend. Using some of the API endpoints created?
 - Lindsay 9/16/2022

Long Term:

- Implement as many UI parts on mobile and web as possible (Hope & Lindsay)
- How frontend libraries want and give data (Hope & Lindsay)
- Updates on the documentation and get started on the user guide (entire team at different times throughout the semester)
- Complete login API
 - Kolby 9/23
- Flush out settings & privacy settings
 - Ethan 1-2 weeks
 - Likely to evolve as we implement more features

Needs

(List any help you need from upper management – specify whether TCH or sponsor)
