

CS4500 Weekly Management Report

Team 10

Team Let's Meet

September 2, 2022

Accomplishments

(Be specific – what was accomplished and who participated; bulletize response)

- Remaining database models implemented and seeded
 - Ethan & Hope: User model
 - Ethan: Friends, Settings, Privacy, Calendars
 - Hope: Onboarding, Event Prompts, Attendance, Comments
- JWT process starting, adding libraries and initial testing
 - Kolby
- Website UI branch, tested sending data from API to frontend to display
 - Lindsay
- Currently known APIs that we need are stubbed
 - Lindsay & Kolby

Goals & Priorities

(List short- and long-term goals in decreasing order of importance; state who is primarily responsible and when due)

Short Term :

- Test the JWT with Postman or some other service.
 - Kolby 9/12/2022
- API endpoints for basic operations (friend requests, calendar operations, etc.)
 - Ethan 9/12/2022
- Get mobile simplified
 - Hope 9/12/2022
- Get more functionality on the website frontend. Sending dummy data from backend to the frontend and sending from frontend to backend
 - Lindsay 9/16/2022

Long Term:

- Implement as many UI parts on mobile and web as possible (Hope & Lindsay)

- How frontend libraries want and give data (Hope & Lindsay)
- Updates on the documentation and get started on the user guide(entire team at different times throughout the semester)
- Complete login API
 - Kolby 9/23
- Flush out settings & privacy settings
 - Ethan 2-3 weeks
 - Likely to evolve as we implement more features

Needs

(List any help you need from upper management – specify whether TCH or sponsor)
